

Chamath Ramawickrama

ICT Business Analyst

Kelaniya, Sri Lanka • +94 76 299 1821 • pasinduchamath23@gmail.com • linkedin.com/in/cham9th

PROFESSIONAL SUMMARY

ICT Business Analyst with over two years of experience translating enterprise requirements into clear specifications and data-driven solutions. Skilled in stakeholder engagement, requirements elicitation, process mapping, and writing technical documentation that connects business goals with engineering delivery. Experienced in supporting cross-functional teams to streamline operations and deliver on time across HRIS, ERP, and cloud-integration projects. Completed a two-year Postgraduate Programme (Master's) in Business Analytics at the University of Colombo School of Computing (UCSC), passing all modules and awaiting graduation.

CORE SKILLS

Business Analysis	Requirements Elicitation, SRS, BCD, Change Request Evaluation, RFP & Compliance, Technical Writing
Enterprise Systems	SAP ERP, Workday, IFS ERP, PeoplesHR (HRIS)
Cloud & Integration	Microsoft Azure, Active Directory, REST APIs, SFTP, Power BI
Data & Programming	Microsoft SQL Server, Python, SQL
Modelling & Tools	UML, BPMN, Figma, Visio, JIRA
Methodologies	Agile, Scrum, Stakeholder Management

PROFESSIONAL EXPERIENCE

ICT Business Analyst — hSenid Business Solutions PLC

Aug 2025 – Present

Colombo, Sri Lanka

Enterprise HRIS & Integrations

- Design REST API integrations between the PeoplesHR platform and SAP ERP, working with implementation engineers to validate data flows across on-premise and cloud deployments.
- Produce low- and high-fidelity Figma wireframes for new pages and features, turning client requirements into Change Requests (CRs) scoped with development and QA.
- Run Proof of Concept (PoC) demonstrations, configuring PeoplesHR to client specifications and validating solutions with engineering stakeholders.

Associate ICT Business Analyst — hSenid Business Solutions PLC

Mar 2024 – Jul 2025

Colombo, Sri Lanka

PeoplesHR Pre-Sales Functional & Technical Team

- Authored Business Case Documents (BCDs), Software Requirement Specifications (SRSs), and technical documentation for PeoplesHR, API and SFTP integrations, and Microsoft Azure Entra ID and Active Directory integrations.
- Facilitated Change Control Board (CCB) sessions with Product Development, R&D, Implementation, and Support teams to review CRs, define engineering effort, and prepare cost estimates.
- Supported technical solutions for SAP, Workday, and IFS ERP integrations, helping manage front-end and back-end configurations through Bugzilla, Redmine, and SAP Crystal Reports.
- Contributed to Buyer Compliance software for apparel and footwear clients, including a secondary payroll and overtime database with configurable OT caps and holiday exclusions.
- Contributed to roadmap planning, maintained feature backlogs, and prepared cost and effort estimates for module additions, upgrades, and API, SFTP, and AD integrations.
- Used secure tools (VPN, KeePass, TeamViewer) and SQL to access client databases, producing scope documents, user guides, and training material.

ICT Business Analyst Intern — hSenid Business Solutions PLC

Mar 2023 – Mar 2024

*Colombo, Sri Lanka**Internship*

- Worked with stakeholders to translate business needs into technical solutions, documenting project specifications and acceptance criteria.
- Ran requirement-gathering sessions with end-users and documented workflows using UML, BPMN, Microsoft Visio, and Draw.io.
- Wrote functional specifications to guide system development and built workaround solutions for PeoplesHR HRIS limitations.
- Designed low- and high-fidelity Figma wireframes for a national broadcasting company's WordPress solution built with a Vue.js front-end, .NET 6 API, and Microsoft SQL Server.
- Prepared RFP responses covering technical, security, and cloud-integration requirements (Active Directory, API, SFTP).

Full Stack Web Developer (Part-time) — CorsDeck

Apr 2023 – Jan 2024

*Colombo, Sri Lanka**MERN · Google Cloud · Vercel*

- Built TITANS, a MERN web application for the "Battle of the Saints" Big Match, deployed on Google Cloud and Vercel and serving 680+ concurrent users.
- Built an admin panel for 20+ users with automated ticket verification and participant management, working with product managers to meet project requirements on schedule.
- Worked in a cross-functional team of eight developers, designers, and product stakeholders to deliver web solutions on time.
